# Subject index

Aerobic capacity, field testing, wheelchair ergometer, reliability, multi-stage fitness test, 511
Aerobic fitness, exercise, population studies, validation study, 1397
Aesthetic sports, artistic gymnastics, judging bias, panel judging, 621
Affect intensity, enjoyment, melody, personal meaning, rhythm, 1547
Ageing, biomechanics, running, exercise, 1447
Ageing, masters, cardiopulmonary, cycling, 197
Air pistol, postural tremor, aiming, shot performance, 1579
Anaerobic capacity, $\dot{V}O_2$ kinetics, non-linear estimation, oxygen demand, 663
Angle–torque relationship, variable-cam, resistance training, knee extension, 163
Anthropometry, gender, proportionality, somatotype, weight training, 531
Anthropometry, skinfolds, measurement reliability, 1333
Anti-doping, doping, laboratory testing, sports, 441
Antioxidant, physical activity, calcium homeostasis, elderly participants, insulin-like growth factor-1, 251
Appraisals, cognition, coping, elite, interviews, 905
Arousability, sensory modulation, affect, psychometrics, personality, 499
Athlete, testing and evaluation, correlation, validity, 123
Athleticogenomics, epigenetics, gene doping, genome, sport, 1127
Autonomic nervous system, vagal, heart rate variability, 1171
Average, evaluations, juries, scores, statistics, 1091
Backhand loops, kinematics, contribution, 287
Basic psychological needs, autonomy, competence, relatedness, athlete burnout, exhaustion, devaluation, reduced sense of accomplishment, rugby union, 835
Basketball, free throw, dynamics, release conditions, 1147
Batting, game analysis, movement patterns, exercise to recovery ratio, 457
Bicycle helmet, visor, heat transfer, radiant flow, sun protection, 1025
Bicycling, cadence, cycling posture, treadmill, 977
Biomechanics, aerodynamics, cycling, wind tunnel, time-trial, 277
Body composition, fitness, somatotype, World Commission of Science and Sports, 349
Body image, lapse, deprivation, 1235
Carbohydrate, cold environment, exercise, fat, interleukin-6, 927
Causal dimensions, confidence, multi-level modelling, shared beliefs, 1179
Central fatigue, exercise, motor-evoked potentials, endurance training, resistance training, 941
Centre of pressure, laterality, one-legged stance, 775
Children, physical activity, exercise, accelerometer, calibration, 1557
Cognition, information processing, executive function, switch task, Brown-Peterson task, 333
Cognitive, softball, coaches, efficacy, decision-making, 603
Cognitive strategies, mental preparation, sport psychology, biomechanics, 1459
Complex training, power development, motor unit excitability, myosin light chain, 795
Confidence, imagery, youth athletes, soccer, 1539
Cooling jacket, cold water immersion, core temperature, fatigue, 1477
Cricket, coin toss, sports league, 3
Cross-country skiing, double poling, ergometer, performance, 171
Cycling performance, protein, carbohydrate, hydration, 227
Definition, attributes, mentally tough, tough-mindedness, 83
Diet, wasting, mood profiles, equestrian sport, 877
Diurnal, time-of-day-specific training, muscle strength, electromyography, 1005
Doping, adolescence, social-cognition, moral disengagement, 447
Doping, public perception, anti-doping strategy, Switzerland, 235
Dual-energy X-ray absorptiometry, athletes, energy requirements, 1209
Electromyography, kinematics, kinetics, V2 skating, maximal speed, 1225
Elite rugby, injury, risk factors, fatigue, 863
Energy expenditure, efficiency, flexibility, stride parameters, 1489
Energy expenditure, exercise, oxygen consumption, heart rate, 959
Estimation, peak power output, $\dot{V}O_{2max}$, SRM training system, equations, maximal aerobic speed, 591
Exercise, athletes, inflammatory markers, 1351
Exercise, cycle ergometer, oxygen consumption, reliability, hypoxia, 47

Exercise, oxidative stress, gender, 1303
Exercise referral, uptake, attendance, completion, health professional, 217
Exercise, schools, physical activity, intervention, pedometers, 519
Exercise testing, aerobic capacity, mathematical modelling, 1387
Exercise-induced bronchospasm, asthma, athletes, 1467
Expertise, decision making, baseball umpiring, sequential and contextual effects, 751
Fast bowling, cricket, trunk kinematics, lower back injuries, 267
Fatness, abdominal obesity, hyperinsulinaemia, physical inactivity, body mass index, 919
Females, aerobic capacity, ergometer, 743
Females, peak oxygen uptake, specificity, ergometry, 1219
Fitness changes, adaptation, anaerobic fitness, team sport, 543
Front crawl, constraints, stroke cycle, arm coordination, 1191
Functional emotions, dysfunctional emotions, hedonic tone, athletic performance, 1033
Futsal, match analysis, heart rate, competition demands, 63
Gas exchange threshold, anaerobic threshold, computer algorithms, limits of agreement, 967
Gastric emptying, skeletal muscle glycogen, sub-maximal exercise, 149
Gaze behaviour, eye–hand coordination, processing efficiency, pressure, 207
Glutamine, tricarboxylic acid cycle intermediates, near-infrared spectroscopy, oxygen consumption, muscle deoxygenation, 1081
Glycogen, osmolality, hydration, metabolic water, water balance, 1361
Golf putting, stroke direction consistency, elite players, putting stroke, face angle, 243
Golf, swing mechanics, biomechanics, kinematics, 181
Health education, children, obesity, inactivity, physical performance, 987
Heart rate variability, Poincaré plot, physical activity, 781
Heat load and debt, exercise, body heat content, thermoregulation, 583
History, maximal oxygen uptake, physiology, sport, 365
Hydrodynamic resistance, propelling efficiency, energy cost of locomotion, human-powered boats, 75
Ice hockey, coefficient of friction, skate blade design, skating performance, 1201
Implicit learning, sport psychology, motor skills, performance, 1049
Impression formation, eye contact, penalty kicks, 569
Intermittent exercise, pedalling rate, power output, recovery, 1437
Intermittent exercise, recovery intensity, time spent at maximal oxygen uptake, time to exhaustion, young athletes, 1313
Interpersonal coordination dynamics, nested control parameters, phase transitions, pattern formation, rugby union, 1421
Inverse dynamics, biomechanics, low back, running, 1519
Ironic processes, movement error, putting, attention, self-talk, 1323
Isokinetic exercise, cortisol, lactate, myoelectric manifestations of fatigue, electrically elicited contractions, 321
Isometric contraction, mechanomyogram, electrical stimulation, muscle–tendon unit, 1567
Kingcycle, external power output, cycling, ageing, 57
Lactate threshold, aerobic capacity, athletes, post exercise, endurance, 29
Leg extension, surface electromyography, isometric training, 155
Logistic regression, generalized linear mixed model, variance component, stolen base, sports, 15
Martial arts, Wushu, physiological benefits, exercise, 1249
Maximal oxygen consumption, heart rate, prediction, fitness, 491
Maximal oxygen uptake, Chinese, body composition, exercise epidemiology, 295
Maximal power, cycling, performance, mechanical efficiency, 1015
Methylxanthine, adrenaline-adenosine-receptor, immune, time-trial, 611
Morality, sport, scale development, 1507
Motivation, motivational climate, perceived competence, 465
Motor control and learning, sport psychology, exercise psychology, 401
Muscle damage, proprioception, isokinetic strength, 1073
Muscular strength, power, ageing, 1431
Myosin heavy chain, energy metabolism, single fibres, cycling, 701
NADH, endurance, strength, reaction time, lactate concentration, 311
Notational analysis, behaviour incidence, behaviour outcomes, 885
Observational learning, task complexity, motor learning, 1097
Organizational, football, coaching, tournament, 1157
Passion, self-determination, sport fan, positive psychology, 1279
Performance, affect, zone of functioning, 761
Performance indicators, form charts, rugby union, standardization, 691

Performance, swimming, variability, dynamic systems, stroking characteristics, 35
Physical activity, school children, moderate-to-vigorous physical activity, 1411
Physical fatigue, mental fatigue, female judoists, Profile of Mood States, neutrophil function, 897
Physical fitness, exercise test, running, 953
Physical inactivity, amotivation, cluster analysis, exercise, 1341
Physiological strain, exercise intensity, adventure racing, sleep deprivation, 477
Plasma fibrinogen, walking, C-reactive protein, postmenopausal women, 303
Postural reaction control, centre of pressure, centre of mass, internal Chinese martial art, fixed-support strategy, 629
Pre-performance, duration, behaviour, National Basketball Association, 259
Psychological responses, precompetition, temporal patterning, rugby union, 811
Quality of life, body esteem, perceived stress, self-esteem, perceived risk, 935
Rate of force development, post-activation potentiation, fatigue, countermovement jump, 803
Recovery, over-reaching, training schedule, modelling, detraining, 643
Recovery, thermal strain, perceived exertion, pre-cooling, 431
Relative age effects, soccer, professional players, coaches, referees, 1531
Respiratory muscle fatigue, maximal inspiratory pressure, prolonged exercise, dyspnoea, 1295
Reverse punch, power punch, impact force, kinetics, kinematics, 189
Riders, cardiac load, motor sports, road racing, motorcycling, 683
Road cycling, aerodynamic body position, upright body position, Kingcycle, power output, 1269
RPE production paradigm, perceptual regulation, ratings of perceived exertion, 131
Rugby, tackle, pads, impact, 855
Saliva flow rate, immunoglobulin A, lysozyme, chromogranin A, exercise intensity, 653
Serum hormones, salivary hormonal measurements, endocrine response to exercise, strength training, 1067
Sleep, alertness, sailing, performance, sleep debt, 21
Soccer, coloration, colour, male dominance, performance, psychology, 577
Soccer, English Premiership, home advantage, 563
Soccer, lacrosse, linear sprinting, agility, countermovement jump, 97
Specificity of training, field tests, talent identification, tactical evaluation, technical evaluation, 413
Sport, doping, mass spectrometry, prevalence, students, 1059
Sport, youth, relative age, development, constituent year effect, 1403
Sports headgear, rowing, forced convective heat loss, radiant heat gain, 733
Sprint swimming, active recovery, passive recovery, repeated sprints, fatigue, 1497
Stretch shortening cycle, fatigue, youth players, 141
Talent identification, selection processes, association football, soccer, season of birth bias, youth football, 995
Task and ego goals, task and ego-involving climate, morality, 717
Technique analysis, kinematics, rugby, 845
Tennis tournament, female players, blood lactate concentration, perceptual responses, notational analyses, clay court, 1589
Testing, motor control, biomechanics, swimming, backstroke, 675
Time motion analysis, high-intensity running, tackles, ball skills, questionnaires, 113
Timemotion, performance, physiology, high-intensity exercise, 825
Tournament play, compression, cold water immersion, 1135
Treadmill, repeatability, performance, 1379
Triaxial accelerometers, energy expenditure, stable isotopes, 553
Ventilatory efficiency, gender, children, ventilation and exercise, 1455
Vibration training, acute, acute residual, 1365
Work test, treadmill test, product evaluation, aerobic capacity, 709
